

## Heritage Helping Housing 2025

### Proposed Heritage Building Grant for Housing

Older buildings have inherent sustainability and provide economic, environmental and social benefits.

**To support Ontario's housing objectives while advancing ACO's strategic goal to Keep | Fix | Reuse our heritage assets, the Province should:**

**Create a new, application-based, matching grant program of \$10M/year to generate new housing. The grant program would incentivize owners to revitalize vacant or under-utilized heritage buildings to create new housing units.**

Walton Street, Port Hope

River Bookshop, Amherstburg
